

# RESURRECTION 1976

## THE STREET ACADEMY OF ALBANY

The Street Academy of Albany is an alternative form of education - a full-time, non-graded school designed to meet the needs of young people between the ages of 14 and 18 who find themselves more comfortable and better able to learn in an environment less structured than that of the traditional high school. The Street Academy is designed with an open classroom format, close to the street, with a staff using effective as well as cognitive teaching techniques, complemented by volunteers from the community. The school works to bring its students to successful completion of the requirements for a high school diploma, with skills adequate for entering college or job training programs, and with a better insight into their potential and how to realize it.

At the Street Academy, students and staff work to transcend their normal roles and form a community of people working for each other, respecting each other as friends, rather than simply as teachers and learners.

# DEDICATION

We wish to show our appreciation to you, Mayen E. Edoho, by dedicating our 1976 yearbook to you.

Rose, you have an inner glow that shines on all around you. It seems to rub off on all of us. You seem to us a woman strongly committed to the people you work with. To know you is to hold the world by the tail - but if we don't hold on, we fall off and get lost. You have always been a strength at the Street Academy. You have been with us four years, and we wish you could be here for the rest of time.

Sometimes you are hard on us if we are negligent, but it is for our benefit. We know your love is from the heart. To us you are a beautiful person in many ways.

We are proud to have been a part of your experience here at the Street Academy. Rose, we do not want to see you go. Good luck to you in the future. We wish you love, peace and happiness. Remember us always.
