"Coach" Sausville,

Gary Garrett and Jay Feinstein

To the graduating class of 1990. This decade offers a greater opportunity for you to achieve success than ever before. Upon graduation each of you will begin a new aspect of your life. We (the staff of Street Academy) have tried to encourage you to believe in yourself and understand that your capabilities for achievement are limitless, to improve expand and gain new skills, and to accept and assume responsibility for yourself and your actions. For some this task has been more difficult than for others, but I am sure each one of you understands that education is a **necessity**. Please remember that education is a **life long process** that begins with birth and ends with death. Your experiences at Street Academy are only a fractional part of that process. Use those skills you have gained wisely to enhance the quality of your life, the lives of your loved ones and the community in which you live.

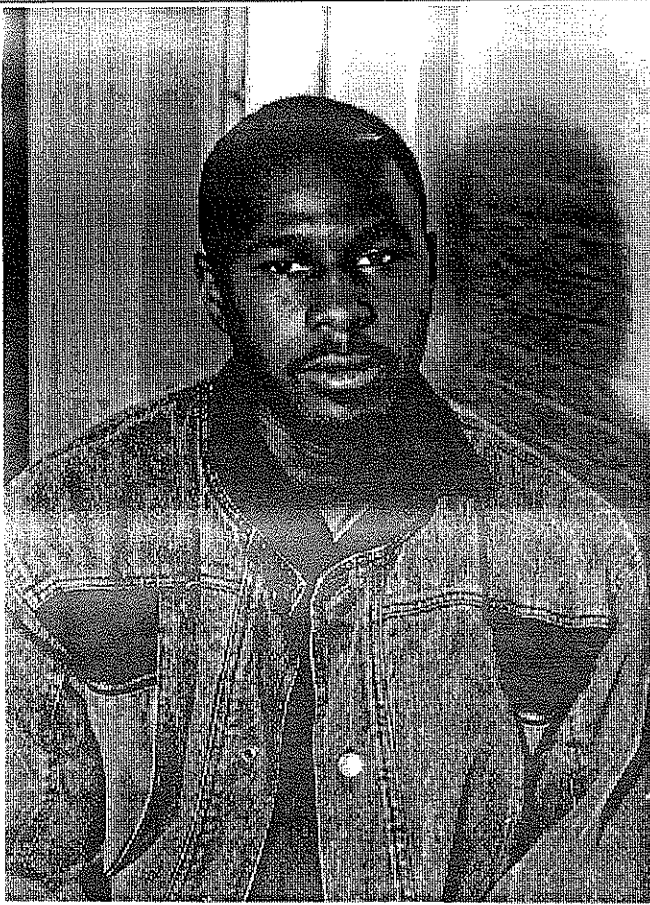

Best wishes for health, happiness and future success.

Sincerely,

Lillian G. Tillman-DeWitt

Street Academy has been a great
influence on my life. The teachers
have been very nice and caring.
If it wasn't for the teachers pres-
suring me to work harder, I prob-
ably wouldn't have made it.

My couple of years at Street Academy have been educational and fun. The teachers are very helpful and care a lot for the students. I am looking forward to becoming a Master Chef at one of the fine Culinary Arts schools of America.

Tina Torres

Street Academy has been a great influence in my life. Without the time the teachers have taken to get me to the top I wouldn't have been able to get there. My plans for the future are to attend a business college and to prepare for computer programing.

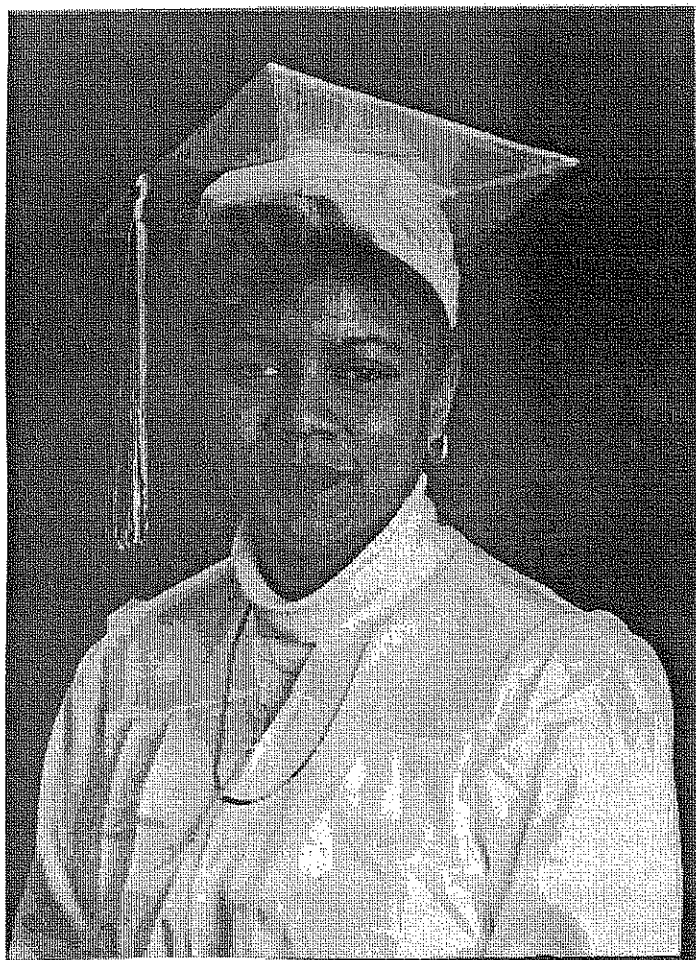

Kevin McCarthy

Tammy Rios

I am considering college for
Hotel Management and Tourism.

*Leslie Van Bergen
(Sissy)*

I plan on going into the armed forces after graduation. Then I'm going to college to take Early Childhood Education. Thank you Street Academy.

When I graduate I plan to go on to college, Morgan State University. Before that I am going into the Army Reserve to be trained as a psychiatric specialist. When I graduate from college I will be a second lieutenant in the fulltime army.

John Ricci

After my possible graduation I plan to attend Goucher College in Maryland where I plan to major in education and eventually get my masters degree. After graduation I plan to come back to Albany and start an educational reformation because the system in Albany is depleting fast. I also plan to get married to K. S. and have two kids.

Remembering the Revolutionary Values
of
Martin Luther King

"I am convinced that if we are to get on the right side of the world revolution, we as a nation must undergo a radical revolution of values. We must begin the shift from a "thing oriented" society to a "person oriented" society. When machines and computers, property motives and property rights are considered more important than people, the giant triplets of racism, materialism, and militarism are incapable of being conquered."

Congratulations to the Class of 1990!
